

Adoption Checklist

- [] Adopter will use a bulldog veterinarian we recommend, despite the fact it may require some traveling.
- [] Adopter has done research on bulldogs and understands completely the health issues/limitations that accompany this breed. The adopter is accepting of these health issues/limitations.
- [] Adopter has an air conditioned home and realizes that bulldogs cannot tolerate high heat.
- [] Adopter's children, if any, understand how animals should be treated.
- [] Adopter is either a non-smoker or does not smoke inside the home since bulldogs have so many breathing problems.
- [] Adopter's other animals, if any, are friendly to dogs.

If Adopter has ever returned any pet to a breeder/shelter/rescue before, what was the reason? _____
